

**Gregory P. DeSart, P.E., C.E.M. Receives LEED, AP  
President/Owner of Geotechnical & Environmental  
Services, Inc. (GES) & Eagle Drilling Services, LLC**

Geotechnical & Environmental Services, Inc. (GES) announced that its president, Gregory P. DeSart, P.E., C.E.M., has passed the exam to become a LEED Accredited Professional.

By Mr. DeSart becoming a LEED AP, GES will become more of an active participant in the design process for LEED accredited buildings. GES is currently coordinating feasibility studies for several buildings in southern Nevada for Ground Source Heat Exchange systems. These systems provide highly energy efficient heating and cooling of buildings by tapping into the relatively constant temperatures of the earth.
